

GOLDIM - CZECH FOOD COMPANY

DEVELOPMENT, MANUFACTURING & SALES OF HIGH QUALITY AND HEALTHY PRODUCTS

About us

We are a Czech company, founded in 1992 and from the very beginning we have been focused on the development, manufacturing and sale of special foods.

GOLDIM is synonymous with high-quality products of great taste and a balanced nutritional value.

We are constantly working on the development of new products and we are looking for other ways to bring consumers high quality and healthy products.

Our priorities are long-term business partnerships and customer trust in our products.

Development

Our basic principle is to produce all products only from natural raw materials without the use of preservatives, artificial colours or flavours. We have our own development team, which also works with renowned research institutes in the Czech Republic.

In 1996, we developed and launched the first probiotic with the prebiotic ingredient (ProbioFlora™).

Since 2005, we are the only company in the world who develops and manufactures organic children's beverages.

In 2012, we developed, patented and launched cereal based on Goat's milk for babies.

Production

The whole production process begins with the selection of quality ingredients, then continues to the processing of the ingredients with modern technologies that ensure the high quality of all our products, and ends with the final distribution to the customer.

Production takes place in two of our own separate modern factories in the beautiful surroundings of South Bohemia.

We control the input of raw materials and the manufacturing process and we examine, in detail, the quality of all finished products.

Export

Since 2003, we develop and manufactured products for foreign markets, mostly under private labels.

Manufactured products under the labels of partners can be found not only in the Czech Republic, but also in Germany, Turkey, USA, Russia and Ukraine.

We are where our partners
need us to be.

Products

Our philosophy is to support natural and healthy human development from birth.

We develop and produce the following product groups:

- + infant formulas and cereals based on goat's milk,
- + baby teas and instant beverages in organic and conventional quality,
- + ORS (oral rehydration solution) for children and adults,
- + protein meals for Ketogenic Diet,
- + food supplements for detox and weight management,
- + food supplements for children and adults.

GOATTINY™

**A RANGE OF BABY PRODUCTS BASED
ON GOAT'S MILK**

**We believe in eating natural foods and staying
healthy is the best gift you can give your baby.**

We offer GOATTINY™ formulas and cereals as an
alternative to parents who don't want to or can't feed
their babies with cow's milk based products.

MAIN BENEFITS

Easy to digest, low allergens, low in lactose, no cow
milk protein, no GMO's, no hydrolyzed proteins.

Casein profile chart
of breast, goat's
and cow's milk

GOATTINY™

Statement of European
Food Safety Authority (EFSA)

The use of high quality raw materials, strict hygienic conditions and modern production technologies, make GOATTINY™ the premium first food for babies starting from birth.

Excellent taste and balanced nutritional value correspond to modern needs in baby nutrition.

“Protein from goat milk can be suitable as a protein source for infant and follow-on formulae, provided the final product complies with the compositional criteria laid down in Directive 2006/141/EC.”

GOATTINY™ infant, follow-on and growing-up formulas

- + Compared to cow's milk, goat's milk is much easier to digest, it has a different composition and structure of the fats and oligosaccharides which are more similar to breast milk; it contains a very small ratio of alpha s1-casein (the main allergen in cow's milk).
- + Formulas contain high quality goat's milk, which is fortified with all necessary vitamins, minerals and other ingredients, such as omega-3 and omega-6 fatty acids (LA & ALA), nucleotides or fructooligosaccharides (FOS).
- + All ingredients are in ideal composition for correct development of a baby.
- + Contains goat's lactose, no traces of cow milk protein.
- + Does not contain palm oil.
- + Packed in a protective atmosphere.
- + Net weight: 750 g.

GOATTINY™ cereals

- + GOATTINY™ cereals are a perfect step to introducing a baby to their first solid food.
- + Contains only high quality infant formula based on goat's milk and carefully selected grains and/or fruits.
- + Selected cereals do not contain gluten.
- + Packed in a protective atmosphere.
- + Net weight: 225 g.

BABIO®
organic beverages for babies

- + 100% organic instant drinks for babies based on lactose, with prebiotic fiber.
- + Fennel can be used from the first week of life.
- + No added saccharose.
- + Easy to prepare in hot or cold water.
- + Packed in composite can with easy-peel open.
- + Net weight: 180 g.

BABIO®
organic teas for babies and mothers

- + 100% ORGANIC
- + Range of eight fruit and herbal infusion teas, with excellent taste.
- + Fennel and Chamomile can be used from the first week of life.
- + Organic tea for breastfeeding mothers with a proven combination of herbs for increasing secretion of breast milk.
- + 20 teabags in envelopes/paper box.

Instant herbal drink for breastfeeding mothers

- + Ingredients used are carefully selected for increasing secretion of breast milk.
- + The herbal extracts used in this blend potentiate individual effects
– i.e. herbal extracts are supporting each other to increase a complex effect.
- + Gluten-free.
- + Lactose-free.
- + Does not contain artificial preservatives, colours or flavours.
- + Packed in composite can with easy-peel open.
- + Net weight: 200 g.

ORS

(oral rehydrating solution)

Food supplements

- + Helps with diarrhea, vomiting and fever for infants from one week of age. Does not contain artificial preservatives, colours or flavours.
- + Our rehydration mixture belongs to a group of “Foods for special medical purposes”. The composition has been declared according to the requirements of international institutions, such as ESPGHAN (European Society for Paediatric Gastroenterology, Hepatology and Nutrition), WHO (World Health Organization).

- + We are constantly monitoring modern trends and implementing new findings from the fields of medicine, nutrition and a healthy lifestyle. We also produce food supplements for children and adults. In this portfolio you will find food supplements from the following areas: sports nutrition (protein drinks, fat burners, etc.), probiotics, weight management (slimming products), detoxification of the organism, support for the function of joints, liver, kidney, etc.

Private labeling, development and packing

We are able to offer all of our products under your private label. If you have a suggestion for new product, please contact us. Our development and production team will help you turn your ideas into reality.

We use only premium quality raw materials which are sourced from reliable suppliers, to ensure the highest quality possible. All production procedures are carried out according to the HACCP and ISO standards.

We are ready to help you from the very beginning to choose the most suitable kind of packaging, create an attractive design and give you technical support. Our production lines and packing machines are able to produce and pack pills, capsules and powders.

High protein meals – KETO meals

Weight management products that substitute as all-day meals with a balanced composition. A complete range of a daily menu, starting from breakfast (porridges, shakes, desserts), continuing to lunch and dinner (soups, risotto, pasta, omeletts).

- + Great taste.
- + Ready to serve in a couple of minutes.
- + Selected kinds do not contain gluten, lactose or soya.

EXCLUSIVE FOOD SUPPLEMENTS

immunity | detox & body cleaning | weight control & fat burners
sport nutrition | heart & bloody vessels

- + Verified products that work.
- + Synergistically working active ingredients which have a complementary and mutually reinforcing effect.
- + The highest quality – we use only high-quality and mostly European natural raw materials.
- + INNOVATIVE composition – often with patented natural ingredients with a proven effect.
- + According to the product type – suitable for vegetarians, vegans, celiacs, diabetics and people with lactose intolerance.
